

Dec Group to showcase high containment manufacturing solutions at CIPM 2020

October 28th 2020

Ecublens, Switzerland: – Dec will return to one of the world’s biggest pharma industry trade events, next month’s China International Pharmaceutical Machinery Exposition (CIPM), in Chongqing.

Dec’s hi-tech 72m² island stand at Booth S1-12 at the Chongqing International Expo Center will use a big screen to present integrated high containment pharma manufacturing and packaging solutions based on its pioneering PTS Powder Transfer System[®] and various handling, micronizing and process containment technologies.

HPAPI Micronization, containment solutions and process optimization

Our live presentations on our booth on November 3 and 4 will treat:

14:30 – 15:00: Powder transfer in the pharmaceutical industry

15:10 – 15:40: HPAPI Micronization in an aseptic environment

15:50 – 16:20: Containment technology in the secondary pharmaceutical industry

The Dec team will provide simultaneous Chinese translations.

The on-screen presentations will show how Dec equipment can be applied to a wide range of manufacturing processes for active pharma ingredients, emphasizing operator and product protection, process optimization and regulatory compliance.

Dec’s recent appearances at CIPM reflect the group’s rapidly expanding presence and business in China and the Asia-Pacific region more generally.

About Dec Group

Dec (Dietrich Engineering Consultants) Group is a leading global provider of contained powder handling systems and is recognized as a world-leading expert in process containment technologies. It has been supplying the pharmaceutical, chemical, food and cosmetic industries for more than 30 years.

Headquartered near Lausanne, Switzerland, Dec Group has a global presence with subsidiaries and agents in more than 30 countries including subsidiaries in the UK, Ireland, Germany, Poland, the Netherlands, India, China and the USA.

In excess of 600 companies worldwide have successfully integrated more than 9’000 Dec systems into their production sites. These include a wide range of patented products that enhance safety, hygiene, containment, reliability and productivity in powder handling.

Dec offers innovative approaches across the range of powder handling and process containment applications, including transfer, micronizing, filling/emptying, sampling,

blending, dosing, aseptic solutions, milling, isolators and advanced cleaning (CIP/SIP) features.

About CIPM Autumn 2020

Founded in 1991, the China International Pharmaceutical Machinery Exposition (CIPM) has rapidly grown to become one of the largest pharmaceutical machinery industry shows in the world.

Now held twice yearly, the CIPM Autumn event is expected to attract more than 1,000 exhibitors and more than 75,000 visitors .

The 59th CIPM event, the Autumn 2020 Expo, will be a three day event opening November 3 at the Chongqing International Expo Centre. This is the 47th CIPM show since the event was founded in 1991.

Once again, the Expo will also host more than 20 high-level forums and technical seminars.
