

Following recent acquisitions, Dec Group continues to accelerate its growth and expands its product range, particularly in the field of aseptic and containment filling lines and Isolators. As a leader in the design and production of powder transfer, handling and containment equipment for pharmaceutical and Chemical industries, Dec Group offers global solutions throughout the production chain from the raw material handling to the final product packaging process. The group has more than 950 employees worldwide, including 120 employees headquartered in Switzerland.

For our office in Breda Netherlands we are looking for a:

Project Manager (M/F) – 100 %

Mission

Our filling lines push the boundaries of what's technically possible. We serve some of the world's leading pharmaceutical companies. As Project Manager, you will take ownership of the project from the moment the customer places the order through to final commissioning. You will be responsible for planning and managing all aspects of the project budget, costs, quality, and timelines.

Your role

What You'll Do

- You will coordinate the project team which consists of local as well as members of other DEC subsidiaries internationally.
- You will lead regular meetings with the client to manage client expectations and report project progress and deviations from the contract. Your engagement with the client starts from day one until the final meeting.
- You balance and prioritize available resources to keep the project on track.
- Generally, you will ensure you are complying with laws, regulations, and guidelines within the pharmaceutical industry.
- You will manage Engineering through the Project Engineer on the progress of the engineering activities and technical challenges.
- You will liaise with Sales on communicating and managing change orders with the client.
- You proactively schedule, prepare, and manage the FAT and SAT, and communicate timely internally as well as externally. Additionally, you may have to actively participate in the IQ, OQ, PQ.
- You continuously evaluate the project, document, and share the learnings at the correct level.
- Your willingness to travel during the project life is real.

What Dec has to offer

Working at Dec means being part of an ambitious and innovative organization. We value quality, teamwork, an informal atmosphere, personal connections, and building lasting relationships. Our line of work offers high-tech challenges that encourage creative thinking and the development of groundbreaking solutions.

In addition to a competitive salary and benefits package, we offer continuous opportunities for learning and professional growth especially in what you enjoy most: solving technical challenges.

Your profile

- A technical bachelor's or master's degree in Mechanical/Electrical Engineering or Industrial Engineering and Management
- Between the 5 and 10 years experience as a Project Manager in a similar type of industry
- Project management at IPMA C / Prince 2 level
- Product/technical knowledge with mechatronic machinery
- Experience in dealing with national and international clients and suppliers.
- Experience with turnkey projects including site installation & commissioning
- Strong in contract management
- Experience in managing highly skilled team members.
- Good leadership and communication skills
- Fluent in Dutch, and English
