# About Dec Group

## Company Profile

"We are a leading global provider of powder handling and process containment systems to the pharmaceutical, chemical, food and cosmetic industries."

From the raw material handling to the final product packaging process, Dec acts as a global player throughout the production chain.

In excess of 600 companies worldwide have successfully integrated more than 10,000 Dec systems into their production sites. These include a wide range of patented products that enhance safety, hygiene, containment and productivity in pharmaceutical and chemical manufacturing.

Dec offers innovative approaches across the range of powder handling and process containment applications, including transfer, micronizing/milling, bulk handling, sampling, blending, dosing, aseptic solutions including fill-finish, process isolators and advanced cleaning (CIP/SIP) features.

500+ people work on contributing to the success of the group with a global coverage in over 60 countries by an international agency network oriented to providing local customer support and service.

## Dec Group Core Values at Work

"Dec provides innovative high-end solutions when complexity is involved and when the following keywords are relevant"

# Company Milestones

## Company Milestones

## Dec Group Today

A world map with a blue grid background. The Dec Group logo is in the top right corner. Subsidiary locations are marked with text labels: Dec USA (North America), Dec Ireland (Europe), Dec UK (Europe), Dec Poland (Europe), Dec Netherlands (Europe), Dec Germany (Europe), Dec Switzerland (Europe), Dec India (Asia), and Dec China (Asia).

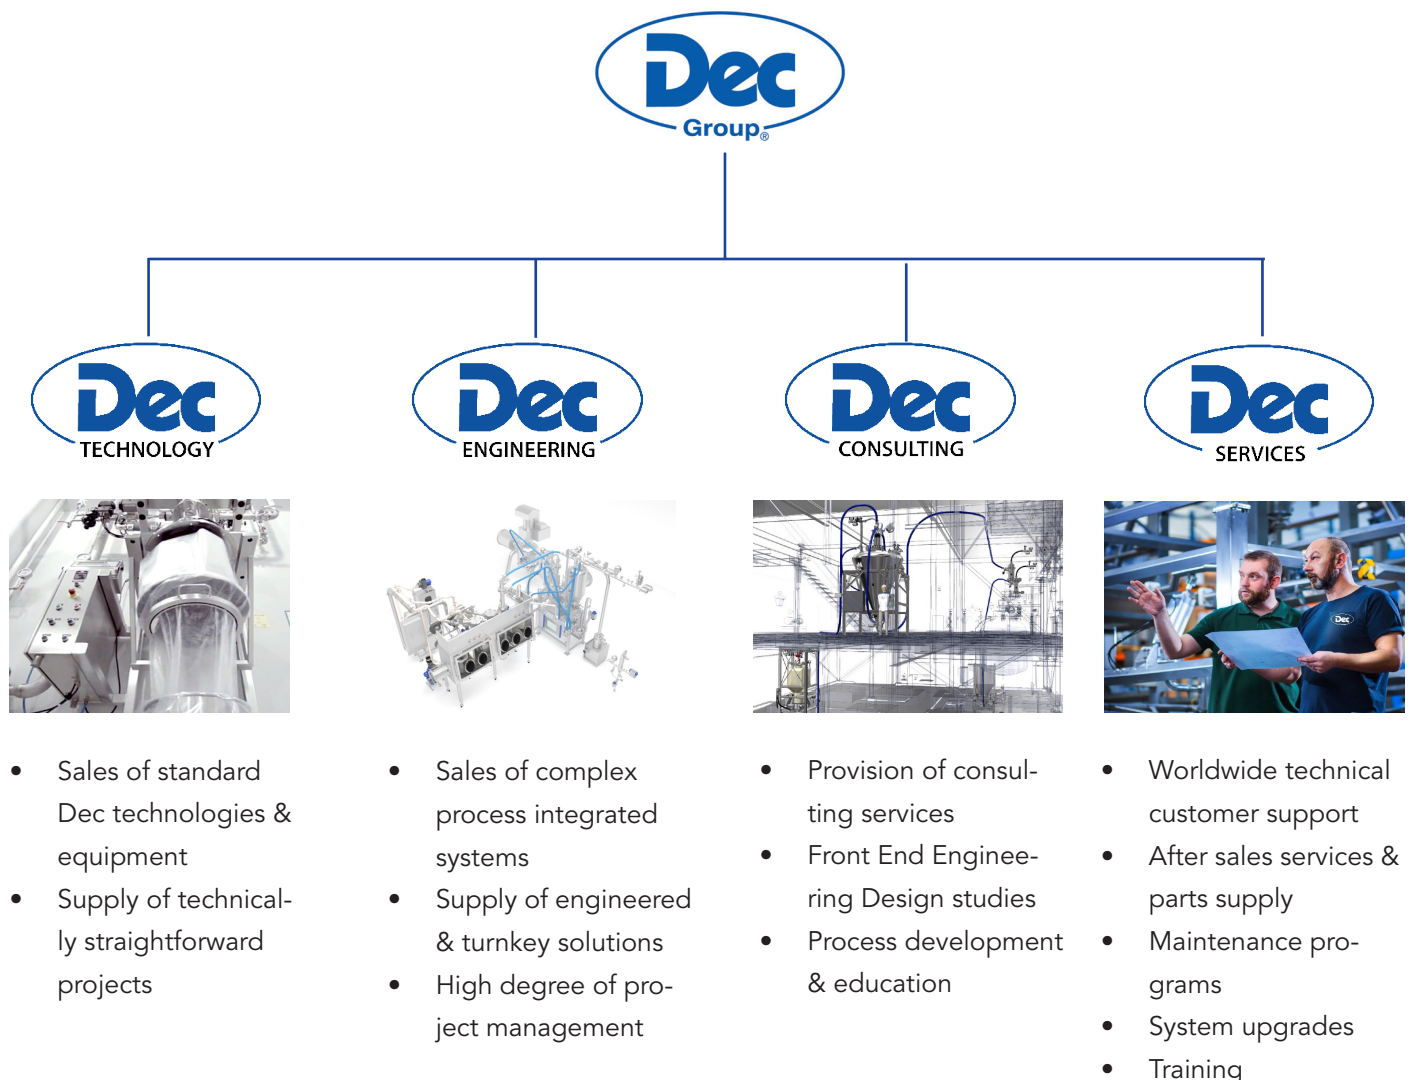

- Over 30 years of experience
- > 500 employees
- Customer proximity with 9 subsidiaries and an agency network covering 60+ countries
- Over 10,000 successfully implemented projects worldwide

# Corporate Divisions

In order to market our different products and services, Dec's activities are divided into the following four business divisions which operate individually and, if required, harmoniously with one another.

With these business areas, our aim is to be a highly efficient company able to remain successful in an increasingly competitive environment. Our capacities and extensive know-how enable us to act as a solution provider showing the way and aligning our business with today's ever more demanding customer requirements.

# Products & Services

Powder Handling  
Technology

- Transfer
- Bulk Handling
- Dosing
- Mixing
- Sampling
- Contained and/or sterile/aseptic handling

Particle Size  
Technologies

- Micronization
- Mechanical Milling
- Contained and/or sterile/aseptic milling

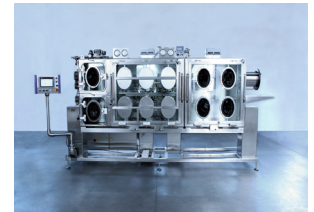

Filling Solutions  
Technologies

- Primary packaging filling for powder, liquids and gels including Dual Chamber Systems
- Secondary packaging
- Serialization
- Contained and/or sterile/aseptic filling

Containment Solutions  
Technologies

- Barrier systems and isolator technology for process containment
- Contained and/or sterile/aseptic isolators

# Awards & Certifications

## Systech Aggregation Certification

Dec Netherlands has Systech certified field engineers and project engineers who can provide serialization & aggregation service on behalf of Systech.

# Awards & Certifications

## Micronization Technology

McOne, the lab scale spiral jet mill of the 3rd generation has won the Swiss Technology Award in 2003.

## ISO 14001 & ISO 9001

We obtained ISO 14001 certification, a recognized standard ensuring that our services meet the needs of the environment through enhanced environmental performance and the fulfilment of compliance obligations.

Along with the renewal of our ISO 9001 certification, we are happy to achieve now both effective quality management and environmental objectives providing value for our organization and all interested parties.

## Trade Shows & Events

A wide, horizontal photograph showing a busy trade show or exhibition hall. Several people are seated at long white tables, looking at displays or talking. In the background, there are large digital screens and industrial equipment. The word "Events" is overlaid in large, bold, black letters.
